INTERNSHIP FOR SOFTWARE ENGINEERING

601121619787 | phxx04@gmail.com | Skudai, Johor

SUMMARY

I am a Software Engineering student with 3 years of study experience, actively involved in various projects and hackathons that strengthened my technical and problem-solving skills. I am studying towards becoming a full-stack developer and looking for an internship where I can learn, grow, and gain real-world development experience.

TECHNICAL SKILLS

- React
- Next.JS
- REST & GraphQL API
- Flutter
- Java
- TypeScript
- Node.JS
- Golang
- MongoDB

WORKING EXPERIENCE

Frontend Developer Internship, *LYJ Event Marketing* Aug 2024 - Nov 2024

- Developed a property listing website using Next.js from scratch, creating responsive UI components and integrating the frontend with backend through GraphQL APIs.
- Collaborated with designers and backend engineers to translate design specifications into functional web pages.

PROJECTS

Frontend - Alpha Listing

- Built a property listing frontend using Next.js, GraphQL, Zustand, and Tailwind CSS with fully responsive design and SEO optimization.

Fullstack - Afford

- Developed a MERN application using MongoDB, Express, React, and Node.js, implementing REST APIs and integrating the frontend with a non-relational database.

Web3 - Hajimi Fund

- Created smart contracts using Solidity, with Next.js as the frontend and Ethereum for blockchain interactions.

Mobile - EatMeh

- Built a combination social media + diet tracking mobile app using Flutter and Firebase, featuring localization and Gemini API integration for AI-powered recommendations.

EDUCATION

Asia Pacific University (APU) 2022 - 2026

- *Diploma in Information & Communication Technology with a specialism in Software Engineering*
- *Bachelor of Science (Hons) in Software Engineering*
